3. Marketing Mix Strategy (4Ps)

•Product: Position our offering as a premium, high-value solution that directly addresses current market pain points (e.g., efficiency, sustainability). We will utilize "minimum viable product" (MVP) updates

3. Marketing Mix Strategy (4Ps)

•Product: Position our offering as a premium, high-value solution that directly addresses current market pain points (e.g., efficiency, sustainability). We will utilize "minimum viable product" (MVP) updates based on real-time feedback.

•Price: Implement a value-based, tiered pricing structure. Startups should avoid pure cost-based pricing; instead, set prices that reflect market demand, perceived value, and competitive benchmarking.

•Place (Distribution): Focus on a DTC (Direct-to-Consumer) website for maximum margin and brand control, supplemented by curated third-party marketplaces (e.g., Amazon, niche industry directories).

•Promotion: A content-first approach

3. Short-Term Strategy (0–12 Months)

Focus: Liquidity, operational efficiency, and market entry.

Goal 1: Establish Initial Market Presence (Months 1–3)

Launch MVP (Minimum Viable Product) or initiate services.

Initiate targeted digital marketing campaigns.

Goal 2: Drive Revenue and Liquidity (Months 3–6)

Secure first [X] paying customers

•Promotion: A content-first approach utilizing educational, high-value content to establish thought leadership rather than just high-frequency advertising.

3. Short-Term Strategy (0–12 Months)

Focus: Liquidity, operational efficiency, and market entry.

Goal 1: Establish Initial Market Presence (Months 1–3)

Launch MVP (Minimum Viable Product) or initiate services.

Initiate targeted digital marketing campaigns.
